MVED MVP—Motor Vehicle Portal

Under the MVP website you can renew your business license, if you are a dealer you can purchase permits, clear temporary permits and do your monthly reports of sale, view your plate statuses, request a temporary offsite license, and request a salesperson transfer. When you set up an MVP log in you will get electronic renewal reminders each year. Go to mvp.tax.utah.gov to log in.

Adding MVP Access

If you are just setting up your MVP access for the first time a business owner must start the MVP login process. If the owner of your business chooses to allow someone to log in on their behalf of their business, then a PIN number will need to be provided to that individual. The PIN number is sent to the owner via email at the time they create their account. If there are multiple owners of the business then **ALL** the owners must set up a login to provide 3rd party person access to the account. We want ALL the owners to be aware of who has access to their MVP account so they can manage the logon rights. **An employee should NOT be logging in using the owner's login or setting up an account using the owner's personal info. If we find an account set up by an employee using owner information that account will be ceased.**

The owner will get an email similar to this when their account is set up:
